Schools have an obligation to provide a physical as well as psychological atmosphere that is conducive to learning and to ensure that students have every opportunity for success. Student must recognize that unacceptable conduct will be neither condoned, tolerated, nor accepted in school. Therefore, all students are expected to exercise self-control and conduct themselves in an appropriate manner at all times.

A well-mannered student body is important in order to:

- Create atmosphere in which learning, studying and working can proceed best;
- Make students aware that in our society the individual must assume responsibility for his/her actions;
- Provide for the safety of all students and staff;
- Maintain school and property to assure an environment conducive to learning.

Disruptive behavior that impedes the learning of self and/or others in class, or in any other areas in and around school, will result in immediate disciplinary action. Disciplinary actions may include: After-school detention, loss of privileges and exclusion from school activities, ISS, OSS. Any student who has multiple suspensions and continues to chronically violate regulations may be referred to the School Administration for Administrative Review.

CHEATING/PLAGIARISM/FORGERY

Cheating, plagiarism and forgery of any type will result in failure of the evaluation or paper/project for the person cheating and possibly the person providing the information voluntarily. Failure of the course for the marking period is possible in extreme cases.
