V. ITEMS FOR DISCUSSION

Electricity Consortium Purchasing Authorization

East Stroudsburg Area School District Finance Committee Meeting Electricity Consortium Purchasing July 12, 2022

Background:

The District entered into an agreement with Provident Energy Consulting (PEC) on August 16, 2010. PEC provides the District with energy consulting services primarily related to electricity and natural gas procurement. PEC procures commodity energy for the purpose of achieving cost reductions through retail energy markets. PEC leverages the combined buying power of the Colonial IU 20 Districts for Natural Gas and the combined buying power of approximately forty Public School Districts who utilize Met Ed for the supply of electricity. The District's current Natural Gas 'basis' (Transportation) agreement was recently extended and runs through the end of the 2024–25 school year. While the District's Electricity supply agreements will expire at the end of 2022–23 school year. PEC will begin the Electricity supply renewal process soon while monitoring current weather and market conditions for ideal timing. PEC's cost for services are the same as they were in 2010 at \$0.001 per kilowatt hour of electricity and \$0.01 per Therm of natural gas.

Separately, the District recently engaged in conversations with Penn State Facilities Engineering Institute (PSFEI) who provide similar energy consulting services related to electricity procurement. PSFEI is a COSTARS certified provider who functions as part of the Pennsylvania Department of General Services. PSFEI also provided a complimentary review of the District's regulated electric utility bills and supply contracts and noted no billing issues. PSFEI's cost for services is \$0.001 per kilowatt hour of electricity. PSFEI is not currently providing services for natural gas procurement.

Recommended Action:

It is recommended by Administration that the Board authorizes the administration to participate with Provident Energy Consulting in the Met Ed Public School District Electricity Purchasing Consortium bid and pricing analysis at a date to be determined during FY2022-23. The bid recommendation as awarded will then be presented to the District's Board of School Directors at a Regular Board Meeting for ratification at a date to be determined during FY2022-23.

To Place an Order

Please sign below and return original signed document with deposit check to S+B:USA PO Box 938 Middlebury, CT 06762. The Purchaser acknowledges receiving this S+B pricing Proposal, S+B Terms & Conditions (below).

Respectfully submitted S+B: USA by Kate Willoughby to Amanda Parrish, East Stroudsburg High School. The offer is accepted by:

East Stroudsbury High School	Date
Dingmans Ferry, PA	
Kate Willoughby, S+B:USA	Date

S+B Terms & Conditions

Delivery

Delivery is TBD. **Pricing and shipping expenses are based upon all items being purchased together.** Should items be purchased in different amount the project will need to be requoted and additional freight charges will be added. **No inside delivery is quoted.** School is responsible for offloading and bringing items inside as well as minor assembly.

©+B:USA shall not be liable for any delay in or impairment of performance resulting in whole or in part from Acts of God, severe weather conditions, labor disruptions, governmental decrees or controls, insurrections, war risks, shortages, inability to procure or ship product or obtain permits and licenses, supplies or raw materials, or any other circumstances or causes beyond the control of S+B:USA in the conduct of its business.

Installation

No Installation is included.

S+B is not responsible for architectural signed drawings, permits or renovation site work.

Utility Connections

S+B:USA is not responsible for rough-in or final utility connections.

Manufacturers' Warrantles

Most of the products supplied to S+B:USA are warranted to the final consumer solely by their manufacturer: copies of such warranties are supplied with the product or are available from the manufacturer. S+B:USA may also furnish sales brochures and other literature of the manufacturer. S+B:USA assumes no responsibility for the content or obligations of such warranties or sales literature by performing this service. Except for the manufacturer's warranty, there are no express warranties or implied warrantles. All consequential, incidental, and contingent damages whatsoever, S+B:USA's liability in all events is limited to, and shall not exceed the purchase price paid.

Price Guarantee

This proposal is based upon a contingent upon a signed contract by April 4, 2022. Price Schedules are subject to change beyond that date. Any changes to this Pricing Proposal must be done in writing and agreed to by the Purchaser and S+B:USA.

Non-Cancellation of the Agreement

Purchaser acknowledges that once the order has been placed with the manufacturer, the Purchaser will be held responsible for the full agreed to purchase price unless a subsequent written agreement is agreed upon and signed by all parties to this original agreement including the Purchaser, the Seller-S+B-USA and the manufacturers.

Modification of Terms:

S+B:USA acceptance of any order is subject to purchaser's agreement to all of the terms and conditions of sale as stated in this Pricing Proposal and attached Pricing Clarifications and Installation Documents. All other contrary terms and conditions are expressly rejected, and no addition or modification of terms and conditions shall be binding upon S+B:USA unless agreed to by S+B:USA.

Payment Terms

S+B:USA requires the following payment schedule: 50% due with signed purchase order 50% due prior to shipping Payments are to be made by check to S+B:USA.

Note: No Retainage Fee has been incorporated into the pricing proposal. None is to be withheld. No Performance Bond has been allowed for. We can advise an additional cost if one is required. Overdue payments shall be subject to interest of 1.5% per month on the unpaid balance. All payments must be in US dollars.

Order Form and Obligations under the Master Service Agreement

Dear Customer ("you"),

Thank you for your order! This Order Form is subject to the CodeHS Master Service Agreement [or the terms of your original contract] ("MSA"). If you have already signed the CodeHS MSA, there is no need to do so again, and by signing this Order Form, you agree that the Order Form will continue to be subject to the terms of the original MSA between you and CodeHS.

If you have not signed the MSA, please do so while executing this Order Form. By signing the MSA, you agree that this Order Form, and any future Order Forms, will be bound to the MSA.

apply than

Payment Terms

You agree to pay to CodeHS the total fee set forth on this Order Form.

For each term, CodeHS will break up the total fee into a separate invoice 30 days prior to the beginning of such term and you must pay such invoice within 30 days of receipt.

Payment can be made via credit card (up to certain limits), check, wire transfer or ACH.

CodeHS Inc. 747 N LaSalle Dr #500 Chicago, IL 60654 Phone: (415) 889-3376

Effective Date: 06/16/2022

Order Expiration Date: The price associated with this Order Form is only available if executed no later than 07/31/2022.

Subscription Term: Subscription access to CodeHS Services will begin on the Start Date specified in the Order Form and continue until the End Date specified in the Order Form.

KILN PROBLEMS & INFO

Listed below is basic information about Kilns in general as well as information about the Kiln we have currently at High School North.

tikawiliang dia 1860 manika manikang sebesah ngasyarana mananana kung isawi awar 1882

About 10 years

How old is the HIGH SCHOOL NORTH Kiln?

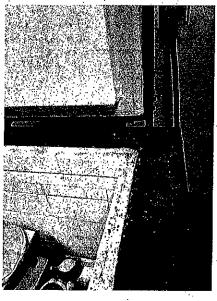

About 20 years old.

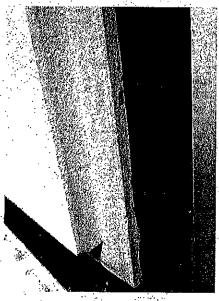

(Our kiln was originally Bushkill Elementary's and was lightly used for several years there. Then was given to High School North about 10 years ago where it has been in constant use since that time with proper maintance/up keep.)

Markey to be the military of the second that the second

Our Kiln has had many parts replaced over the years to keep it running smoothly. At this moment the more we fix the more we are finding more problems. We have encountered the list below of problems that make it unable to be used.

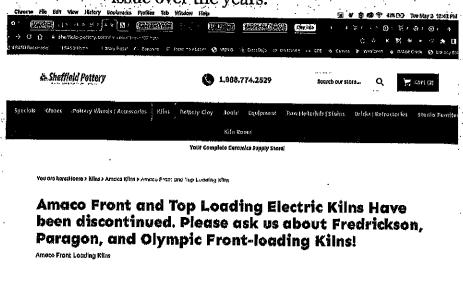

1.) Rusting- the rust is becoming an issue because that means that the kiln walls are starting to corrode. This makes them very weak and will overtime become so brittle that the whole outside will need replacing. (*New kilns have a different outer body now ((Stainless Steel)) that makes them less likely to rust and wear down like ours*) Below are pictures taken in past of rusting.

****Amaco (Kiln Makers) told us that this Model Kiln was "Designed to Fail" They stopped making this kiln because the Rusting of the outer body was such a massive issue over the years.****

(Screen shot from our Ceramic Supply Company)

- 2.) Slumping or moving Kiln Bricks These bricks line the inside sides of the kiln. These are important to help keep the heat on the inside of the kiln and not to release heat outside of it. As of right now, they have shifted down a good ½ centimeter (probably from the rusting and weakening of the outer body). That measurement does not sound like a lot, but in reality, that is a massive shift in kiln bricks that makes the electrical panel/Heating coil panel (elements) also shift.
- 3.) Electrical Panel/Heating Coil Panel Electrical panel is where all of the Heating Coils (Elements) go from the inside of the Kiln to connect to the electrical source outside of the kiln. Because the Kiln Bricks have shifted and dropped the opening down (due to the rusting) so that the electrical cords and heating coils are exposed to one another as well as the outside metal of the kiln. Could cause electrocution.

 This is also breaking the Heating Coil Insulators because of the pressure from the shift. Major safety issue if they break while the kiln was to run and possibly cause a fire.
 - 4.) Heating Coil Insulators the insulators for our kiln are <u>no longer being made</u>; these insulators ensure the metal heating coils never come in contact with other metal, which <u>causes electrical shortages and risk of electrocution.</u> Such a small part is crucial to the safety of people and building around the kiln.
 - 5.) Kiln Running SLOW- The kiln is made to heat up for a certain amount of time. Most of the time a "Fast Fire" on a kiln that is functioning properly will go for about 7.5 hours. Our kiln is currently running on a "Fast Fire" for about 17.2 Hours. This is a HUGE indicator that the kiln is not functioning properly and needs to be replaced. (I kept a log with all of the times for our kiln since I have taken over from Tyler. This is a very big forewarning about the kiln being worn down.)

- 6.) Heating coils shorting out (\$72.00 each) With all of the things that are listed above each of the heating coils keep shorting out because everything is worn down and starting to cause more issues. Each Heating coil is \$72.00 there are 6 heating coils for our kiln. That means that each time we fire the kiln or test it, the heating coils short out and need to be replaced. That is a total of \$432.00 each time that something goes wrong.
- **Normally *Heating coils will last up to <u>two years</u>* before needing to be replaced in our school setting and firing schedule.**
 - 7.) Heating Coil Broke and FUSED to the outside & inside of the kiln- The Heating coil broke on the last shortage on the kiln. This means it has welded to the kiln itself and will now have to be drilled out. In order to do this we need to take the whole kiln apart. (This includes taking off the Lid that is rusted, taking off the top edge of the kiln, taking out all of the inside bricks and the electrical panel.) If this was to happen, we are running the risk of finding more things wrong and lots more money that we do not have in our budget.

<u>Safety Concerns:</u> I have many concerns for the students and people who are around this kiln. There is a high chance that even with replacing parts *or* adapting the wrong parts to work for our kiln that has been discontinued, this Kiln might hurt someone in a variety of ways. I fear that it is not an **IF**, but a **WHEN** it will hurt someone.

1 1 1 1 1

1.) Due to global supply chain issues, the parts we can obtain to repair the kiln are on a 3 to 5 month backorder. We have asked the kiln manufacturer to provide us with a supplier anywhere in the world that we might be able to directly order the necessary parts, but they have been unable to provide us with any suppliers.

Four Classes are not able to make or move on with their projects as of right now. We are doing the best we can right now, but this is a very frustrating situation for everyone. The students are motivated to create and not being able to is making it difficult.

High School North Art Budget

We can apply about \$1,000. 00 towards a new kiln from the Art Department Budget.

THOU WING THE COME

Kiln in equivalent size and capability will be between \$6,000 - \$8,500 with shipping.

*We are in the process of obtaining multiple quotes.

VII. RECOMMENDATIONS BY THE EDUCATION PROGRAMS & RESOURCES COMMITTEE

c. ESACA/TLC Grade 6-12 Digital Libraries – Imagine Learning Quote, \$68,800.00

Form 611

MUST BE COMPLETED FOR ANY PROCUREMENT OF A SERVICE OR ITEM OVER \$5,000.00

The respondent's email (jessica-newberry@esasd.net) was recorded on submission of this form.
