Unfinished Business:

(From the February 26, 2024 Board Meeting)

Superintendent's Report

Submitted for the record: responses to comments that were made regarding budgetary numbers when I spoke during the professional association contract ratification.

Committee Items: N/A

Board Meeting Items:

Budget:

When the motion was made regarding the Professional Association contract that was before the Board at the February 26th meeting, I spoke about the contractual obligations that the majority of this Board had made over the past (13) months. Starting in January 2023, the Board has ratified: the First Level Supervisors, the CFO, the Support Association, the Administrative Assistants, Act 93, the Superintendent, one Assistant Superintendent, and as of the February 26th Board meeting with three new Board members, the Teacher's CBA. I stated that the professional association (teachers) agreement, having the largest number of members, would increase next year's budget (2024-2025) by nearly \$10 million, with each of the (609) teachers receiving a \$10,000 raise. The support association agreement will increase next year's budget by approximately \$1.2 million, the Act 93 agreement by approximately \$303,000, the First Level Supervisors by \$103,000, the Administrative Assistants by approximately \$70,000, and the Superintendent, Assistant Superintendent, and CFO by approximately \$29,000. This equates to budgetary increase of approximately \$12 million dollars for the 24-25 budget, not including all other expenses such as bus replacements, fuel, electricity, consumables, and equipment to name a few. The numbers shared for the professional, support, Act 93, and First Level Supervisors we all provided to me in an email from Mr. Bard on or before February 26th.

In response to my statement:

It was stated by Mr. Karkut: (Excerpt 1) "I can say that our negotiations committee, along with our business manager did carefully review our expenditures and our income, and this was not done, some of your numbers are a little different than what we learned and what we went by."

(Excerpt 2) "I cannot agree, you cannot hold me fully responsible anything previous Board members did before my arrival in December. Okay, the contracts they approved I have no control over those, but I can say with ah honesty and with diligence that we took our time to review numbers with our business manager, our CFO...sorry Peter, and our fellow Board members and I feel confident we can get through this and I think your numbers are just a little different from what we got, but that's what I'm saying."

Note: Mr. Karkut never indicated what numbers were different, nor did he provide the numbers he is suggesting were discussed.

It was stated by Mr. Andrews: (Excerpt 1) "I want to reiterate what Keith said, we all looked very closely at the numbers we worked with Peter on it and we were told and we believe what he said that there's really not going to be an immediate or any ah price tax increase..."

(Excerpt 2) "...I feel but Dr. Riker here, thank you for your information but you are way off in your numbers unless I'm way off"

Note: Mr. Andrews never indicated what numbers were "way off", nor did he provide the numbers he may be thinking of or referring to.

In an email from Mr. Bard (CFO) to the Board on Wednesday, February 7, 2024 Mr. Bard stated the following: "What I have said, and what I will continue to say, is that this agreement can be accomplished, if the board of education, and the community, is prepared to meet their obligation (committing expenditures) by raising revenues. I would think that you would need to start raising taxes in 2025-2026 (next year) by 3.0% at least, and then continuing at a pace of 3.5% to 4.0% to the act 1 index each year for the next 5 years, at least after that."

In Summary

Budgets are based on revenues and expenditures. While the Board controls the expenditures of the district by negotiating contracts, compensation plans, and passing a budget by June 30th of each year, they do not control ALL revenue sources that can have a positive or negative impact on their budget, specifically State and Federal government revenues. At the same time, to balance a budget, the Board has only two options that they may utilize to fulfill their Board approved financial obligations: increasing revenues on their own by raising taxes, or reducing budgetary expenditures by eliminating programs. When a Board votes to make any financial commitments/obligations, they also are committing themselves, and potentially the taxpayers of the community to a fiduciary responsibility that ensures they have the revenue to cover those obligations.

The student or the parent(s)/guardian(s) of a dependent student may request that specific data, e.g., awards, part-time employment, volunteer service in school or community, be placed on the student's file. If such information is verified and of recognized relevance, it may be added to the file. Also, the student or parent may submit a disclaimer concerning the appropriateness or validity of any material in the file. Such statement shall be dated, signed, and kept in the file as long as the material it concerns remains in the file. The appeal process outlined in this policy shall apply for this purpose.

Security and Privacy

The Superintendent shall be responsible for education record maintenance and access and for the education of staff about maintenance and access policies. The school principal is responsible for implementing the policy concerning student education records in the building. All school personnel having access to education records should receive periodic training in security, with emphasis upon privacy rights of students and parent(s)/guardian(s).

Records are to be kept secure at all times under the supervision of the school principal or designated agent.

In addition to the submission of a disclaimer, a parent or eligible student has the right to challenge the validity or appropriateness of any information in the education record and request that such information be corrected or deleted.

A parent or eligible student who believes that information in education records collected, maintained or used by the school district is inaccurate or misleading or violates the privacy or other rights of the student, has the right to request that the building principal amend the information under the following procedures:

1. The parent or eligible student shall submit, in writing to the building principal, a request for

- amendment, which shall include a brief statement, which specifies the record(s) to be amended and the reason that an amendment is requested.
- 2. The school principal shall decide whether to amend the information in accordance with the requests of the parent or eligible student within a reasonable time period after receipt by the school principal of the request to amend, but not more than thirty (30) calendar days.

If the parent or eligible student, upon receiving written explanation from the school principal, still feels a need to challenge information in the education record, the parent or eligible student shall, upon written request to the Superintendent, be granted a hearing in accordance with the following provisions: [18][19]

- 1. The hearing shall be held at a mutually agreed upon time and place within a reasonable time of receiving the written request, but not more than thirty (30) calendar days. - 4. Within a reasonable period of time after the conclusion of the hearing, but not more than thirty (30) calendar days, the panel will make its decision(s), based solely on the evidence presented at the hearing, known to the parent(s)/guardian(s) or individual acting as a parent in the absence of the parent(s)/guardian(s), and will include a summary of the evidence and reasons for said decision(s).
- 5. If, as a result of the hearing, the panel decides to amend the record, it shall so notify the parent or eligible student, in writing and the item(s) in question shall be amended.
- 6. If, as a result of the hearing, the panel decides not to amend the information, then it shall inform the parent or eligible student, in writing, of their rights to place in the education record a statement which sets forth the written comments of the parent or eligible student upon the information in the education record, or reason(s) for disagreeing with the decision of the school district, or both written comments and reasons.

- 7. The statement of the parent or eligible student shall be appended, by the Superintendent or designee, to the education record so long as the record or the contested portion thereof is maintained by the school district.
- 8. If the education record of the student or the contested portion thereof is released to any party, the statement of the parent or eligible student shall also be released to that party.

A parent or eligible student also has the right to file complaints concerning acts of non-compliance with this policy by contacting the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave., SW, Washington, D.C. 20202-4605.

Dissemination or Disclosure

The school district is often asked to transmit student information to other agencies, institutions or individuals. Since conveyance of records removes data from the control of the school, stringent precautions are required to protect the rights of the student against infringement of privacy, misinterpretation of data, and inappropriate use.

Upon receiving a request for educational records from another school district or charter school, the school district shall forward the records within ten (10) business days of receipt of the request.

Student medical records, maintained by the nurse's office, are considered educational records as per federal guidance and may be shared with staff who the school district determines has a legitimate educational interest and a need to know medical information in order to protect the safety and health of the student. Parental requests to maintain the confidentiality of any given medical information must be made in writing and should be directed to the school principal.

The confidentiality of mental health records/information shall be completely maintained. Such records are covered by the PA Mental Health Procedures Act 55 Pa. Code § 5100.33.

The school district may, without the consent of the student or parent, release personally identifiable information from an educational record of a student to/when:

- 1. Members of the professional staff and the clerical support staff (including but not limited to, teachers, instructional aides, guidance counselors, school psychologists, home school visitors, administrative personnel, and confidential secretaries) who have a legitimate education interest. A person having a legitimate education interest shall be defined as:
 - a. Person(s) directly responsible for providing instruction to the student.
 - b. Person(s) directly providing support services to the student.
 - c. Appropriate authorities in a health/safety emergency after consideration of the seriousness of the threat, the need for the information to meet the emergency, the position of the requesting party to deal with the emergency, and the extent to which time is of the essence in meeting the emergency.
- 2. Authorized members of the professional staff of the vocational-technical school, and their clerical support staff, if the student is enrolled or seeks to enroll in the vocational-technical school.

- 3. Authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the Secretary of Education, and state or local educational authorities subject to the requirement of 34 C.F.R. § 99.35.
- 4. The disclosure is in connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to:
 - a. Determine eligibility for the aid.
 - b. Determine the amount of the aid.
 - c. Determine the conditions for the aid.
 - d. Enforce the terms and conditions of the aid.

Financial aid is defined as a payment of funds provided to an individual (or a payment in kind of tangible or intangible property to the individual) that is conditioned on the individual's attendance at an educational agency or institution.

- 5. State and local officials or authorities to whom information is specifically allowed to be reported or disclosed pursuant to:
 - a. State statute adopted prior to November 19, 1974, if the allowed reporting or disclosure concerns the juvenile justice system and the system's ability to effectively serve the student whose records are released.
 - b. State statute adopted after November 19, 1974, subject to the requirements of 34 C.F.R § 99.38.
- 6. Officials of other primary, secondary, or post-secondary schools in which the student is presented for enrollment or intends to enroll, provided the parent, guardian or eligible student, in advance of the transfer, is notified of the transfer and has an opportunity to challenge the record and to receive a copy of the record if so desired in accordance with 34 C.F.R. § 99.35. (Annual notice prior to the beginning of the school year shall be given to parent(s)/guardian(s) regarding their rights in cases of transfer of records without consent. This annual notification to parent(s)/guardian(s) shall be considered sufficient to meet the intent of record transfers to other educational agencies.)
- 7. Agents or agencies conducting educational research who may request group data, provided:
 - a. The project is approved according to the school district's policies and guidelines pertaining to research activities.
 - b. The study is conducted in a manner that does not permit personal identification of the parent(s)/guardian(s) and students by individuals other than representatives of the organization.
 - c. The information is destroyed when no longer needed for the purposes for which the study was conducted.
- 8. The disclosure is to accrediting organizations to carry out their accrediting functions.
- 9. The disclosure is to parent(s)/guardian(s), as defined in 34 C.F.R. § 99.3, of a dependent student, as defined in Section 152 of the Internal Revenue Code.
- 10. The disclosure is to the parent of a student who is not an eligible student or to the student.
- 11. The disclosure is information the educational agency or institution has designated as "directory information."
- 12. To the school district's insurance carriers and legal counsel, and/or their agents, employees and representatives in connection with existing or anticipated claims, litigation or other proceedings involving the student; provided, however, that such disclosure shall be subject to the condition that any such third parties will not disclose the information to any other

- party without the prior consent of the parent(s)/guardian(s) or eligible student unless otherwise required by law.
- 13. For the purpose of enforcing the law, maintaining school safety and creating, maintaining and releasing records in connection with law enforcement purposes, and pursuant to the Family Educational Rights and Privacy Act, the Superintendent or proper school officials, as designated by the Superintendent, may release records and information created and maintained for law enforcement purposes, such as incident reports, files, notes and memoranda, without the consent of students or parent(s)/guardian(s).
- 14. To the Attorney General of the United States or to his or her designee in response to an *ex* parte order in connection with the investigation or prosecution of terrorism crimes specified in sections 2332b (g)(5)(B) and 2331 of title 18, US Code, which does not require a school official to record a disclosure of information from a student's education record when the school makes that disclosure pursuant to an *ex parte* order.
- 15. To military recruiters, upon request, access to and contact information on secondary students (name, address and listed telephone number). Access must be the same as would be provided to higher education institutions and prospective employers. The parent(s)/guardian(s)or student can request that the information not be released without prior written consent.

Other than as prescribed above, no information from a student education record may be divulged, except:

- 1. With written consent of the eligible student or former student or the parent or guardian (if the student is a dependent) specifying records to be released, to whom, for what purpose, and with a copy of the records to be released to the consenter, if desired. (For the purposes of this part, whenever a student has attained eighteen (18) years of age, or is attending an institution of post-secondary education, the rights afforded, and the consent required of the parent of the student, shall thereafter only be accorded to and required of the eligible student unless s/he is a dependent as defined in Section 152 of the Internal Revenue Code.)
- 2. The disclosure is to comply with a judicial order or subpoena. A reasonable effort must be made to notify the parent or eligible student of the order or subpoena in advance of compliance unless disclosure is in compliance with:
 - a. A Federal grand jury subpoena and the court has ordered that the existence or the contents of the subpoena not be disclosed.
 - b. Any other subpoena issued for a law enforcement purpose and the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed.
- 3. If an educational agency or institution and a parent or student are involved in a legal action against each other, the educational agency or institution may disclose to the court, without a court order or subpoena, the educational records that are relevant to the case.

Each matter of request for consent must be handled separately; for example, blanket permission for release of data within an extended period of time may not be solicited since it, by definition, does not provide an opportunity for informed consent.

The school district will annually designate certain personally identifiable information as "Directory Information." Directory information on former students or students currently enrolled may be disclosed for purposes beneficial to the student or the school district and only with the approval of the Superintendent. It shall not, however, be the policy of the school district to prepare annually and maintain file lists of "directory type information" for disclosure purposes.

The parent or eligible student has the right to refuse the disclosure or dissemination of any or all types of directory information by giving the school district written notice within twenty (20) calendar days of publication of the notice.

Parent(s)/guardian(s) or eligible students shall be given public notice relative to this right at the beginning of the school year. The parent(s)/guardian(s) of a dependent student may have access to all education records. The same access is extended to eligible students and former students who are legally emancipated.

Requests by a parent, guardian or eligible student to inspect and review the education record of a student or to have a designated representative inspect and review the education record of a student are to be directed to the principal of the building in which the student is enrolled or to the school district administrative offices for the access to inactive records (graduates and withdrawals). Access shall be granted within a reasonable period of time (not to exceed 45 calendar days) and shall be in the presence of the principal or a designated agent for the purposes of security and assistance in explaining or interpreting the data. Below are the locations of educational records:

- 1. Active student education records of regular students are available in the building in which the student is enrolled. Copies of the record will be provided to the parent or eligible student upon written request.
- 2. Active records of exceptional students are available at the following locations, depending on the nature of the information and its relative need in the daily educational activities of the student.
 - A. <u>Building in Which the Student is Enrolled</u>

Permanent administrative records, including:

- a. Name and birth dates.
- b. Names and addresses of parent(s)/guardian(s).
- c. Academic work completed.
- d. Level of achievement, e.g., grades and standardized test scores.
- e. Attendance data.
- f. Health records.
- B. <u>Special Education Office</u> Evaluation, psychological, psychiatric, and neurological reports, Individualized Education Programs, and all other reports of a similar nature relative to an exceptional student's educational program and placement and necessary for providing the student with appropriate educational services.
- 3. Records of graduates and withdrawals are available in the school district administrative offices. Request forms for release of inactive student information from graduate or withdrawal files maintained in the school district administrative offices shall be signed by a

parent, guardian, or eligible student. A copy of this request will be maintained in the school district administrative offices.

Once student education record information has been released to an agency or person outside the school district, as prescribed above, the school district can no longer be exclusively responsible for the confidentiality of the information.

There shall be maintained, for each active student, a record of access to and release of the student's education record. This shall be available to the parent or guardian of dependent students or to eligible students and to the school district as a means of auditing the operation of the system. The record of access is not meant to include entries by the primary users and custodians of student records designated by the Superintendent or the building principal. Specifically, this includes teachers, school counselors, and authorized clerical staff.

Copying Records

Copies of student transcripts, including certification thereof, shall be provided free of charge to current students and alumni of the school district.

Otherwise, the school district shall charge fees for copies of education records, even when obligated to provide copies to parent(s)/guardian(s) under C.F.R. §99.10 (d), as follows:

Fees for the actual cost of reproducing, secretarial time, and postage shall be reasonable and shall follow the same fee schedule as provided for public records. Such fees may be waived by the school district when the imposition effectively prevents a parent or eligible student from exercising the right to inspect and review the students' education records. Requests for records by third parties (including but not limited to employment verification, legal counsel) will be \$30.00.

Maintenance and Destruction of Information

The school district shall maintain the educational records of all its students consistent with this policy. Parent(s)/guardian(s) and eligible students shall be informed of these records and their right of access to these data as described in the policy.

Staff members may maintain personal and confidential files containing grades, notes, transcripts of interviews, clinical diagnoses, and other memory aids for their own use in counseling students and parent(s)guardian(s). Such private notes are not to be made a part of the student's permanent or cumulative record, are not to be released to others, and must be destroyed when they no longer serve a useful purpose to the staff member or when the student or professional leaves the school or school system. Such notes are considered to be the personal property of the professional and shall be guarded by the tenets of professional ethics.

The school district shall inform the parent(s)/guardian(s) or eligible student when personally identifiable information in the records of the student is no longer relevant to and necessary for the

provision of educational services to the student.

Upon written request of the parent or eligible student, information no longer relevant to and necessary for the provision of educational services to the student shall be destroyed by the school district. However, a written record, or microfilm copy of the same, including a student's name, address, phone number, grades, attendance records, classes attended, grade level completed and year completed shall be maintained for at least one hundred (100) years beyond the date the student attains the age of twenty-one (21).

Prior to the destruction of information referred to in this policy, the school district shall send written notification to the parent(s)/guardian(s), which shall inform the parent(s)/guardian(s) of their right to receive a copy of the material to be destroyed at a fee not to exceed duplication costs.

The school district may destroy education records under the following circumstances:

- a. Records that include a student's name, address, grades, attendance records, classes attended, grade level completed and year completed may be destroyed when 100 years have passed since the student's 24th birthday.
- b. Special Education records, Section 504 records, Instructional Support Team (IST) records, and health records may be destroyed when ten (10) years have passed from the date a student has left the school district as long as there is <u>no</u> outstanding request to inspect and review the records and the records are deemed no longer useful to the school district.
- c. Parent(s)/guardian(s) or eligible students (eighteen years of age or older) have not requested copies by November 1 of the year the records may be destroyed as per paragraphs a & b above. Parent(s)/guardian(s) or eligible students have the right to request a copy of student records before destruction.
- d. Notice of this procedure is provided annually by publication in student handbooks, the school district newsletter and/or the school district calendar, and on the school district website.

No education records containing information necessary for the education of a student who is enrolled or has been enrolled in an education program operated by the school district shall be destroyed except as outlined in this policy.

Nothing in this section, except as stated above, shall be construed to mean that the school district is required to destroy education records.

The destruction of any student records recorded on paper shall be by shredding.

The school district shall not destroy any education records if there is an outstanding request to inspect and review the records.

Policy Interpretation and Construction

This policy shall not be construed to impose upon the school district any obligation or duty not

otherwise imposed by law.

Failure to conform to the requirements of this policy shall not be used against the school district, unless that failure causes a substantial violation of the privacy or other legal rights of the student, or the parent(s)/guardian(s).

Relative to special education students, this policy shall not be construed to be inconsistent with the Individuals with Disabilities Education Act (IDEA) 20 U.S.C. § 1400.1 et. seq., and its implementing regulation, 34 C.F.R. Part 300; and Chapters 14 and 16 of the regulations of the State Board of Education, 22 Pa. Code § 14.1 and 16.1, et. seq.

This policy shall be construed as consistent with all applicable state and federal laws. When a requirement of law cannot be reconciled with a provision of this policy, the requirement of law shall supersede and nullify the provision of this policy and shall be considered the policy of the school district.

The school district shall provide for the need to effectively notify parent(s)/guardian(s) of students identified as having a primary or home language other than English, hearing or visual impairment.

Procedures for the disclosure of student records shall apply equally to military recruiters and postsecondary institutions.

Copies of the student records plan shall be submitted to the Department of Education upon request of the Secretary.

904. PUBLIC ATTENDANCE AT SCHOOL EVENTS

Purpose

The Board welcomes the public at activities and events sponsored by the school district, but the Board also acknowledges its duty to maintain order and preserve school facilities during such events. This policy establishes conditions, restriction and procedures to regulate public attendance and conduct at school and school-sponsored activities.

Definition

State law defines the term tobacco product to broadly encompass not only tobacco but also vaping products including the product marketed as Juul and other electronic cigarettes (e-cigarettes). **Tobacco products**, for purposes of this policy and in accordance with law, shall be defined to include the following:[1][2]

- 1. Any product containing, made or derived from tobacco or nicotine that is intended for human consumption, whether smoked, heated, chewed, absorbed, dissolved, inhaled, snorted, sniffed or ingested by any other means, including, but not limited to, a cigarette, cigar, little cigar, chewing tobacco, pipe tobacco, snuff and snus.
- 2. Any electronic device that delivers nicotine or another substance to a person inhaling from the device, including, but not limited to, electronic nicotine delivery systems, an electronic cigarette, a cigar, a pipe and a hookah.
- 3. Any product containing, made or derived from either:
 - a. Tobacco, whether in its natural or synthetic form; or
 - b. Nicotine, whether in its natural or synthetic form, which is regulated by the United States Food and Drug Administration as a deemed tobacco product.
- 4. Any component, part or accessory of the product or electronic device listed in this definition, whether or not sold separately.

The term tobacco product does not include the following:[1][2]

1. A product that has been approved by the United States Food and Drug Administration for sale as a tobacco cessation product or for other therapeutic purposes where the product is marketed and sold solely for such approved purpose, as long as the product is not inhaled.

2. A device, included under the definition of tobacco product above, if sold by a dispensary licensed in compliance with the Medical Marijuana Act. Federal law requires the district to maintain a drug-free environment, at which marijuana of any kind is prohibited. [3][4]

Authority

The Board has the authority to prohibit at a school event the attendance of any individual whose conduct may constitute a disruption. The Superintendent or designee and building principal may limit attendance to designated areas or may limit the number of attendees to school events when necessary to protect the health and safety of students, staff and the public, in accordance with Board-approved health and safety plans and guidance from state and local officials.

The Board prohibits gambling and the possession and use of controlled substances prohibited by state or federal law, alcoholic beverages and weapons on school premises.[5][6]

Attendees shall be informed of the district's health and safety rules through announcements and/or posting of appropriate signage. Health and safety rules must be followed prior to entry and while attendees are in school buildings and on school property, in accordance with Board policy, district procedures, the Board-approved health and safety plans and guidance from state and local officials.[7]

Tobacco and Vaping Products

The Board prohibits use of tobacco and vaping products, including the product marketed as Juul and other e-cigarettes, by any persons at any time in a school building; on school buses or other vehicles that are owned, leased or controlled by the school district; or on property owned, leased or controlled by the school district.[2][8]

This policy does not prohibit possession of tobacco and vaping products, including the product marketed as Juul and other e-cigarettes, by members of the public of legal age at school or school-sponsored activities.

The Board deems it to be a violation of this policy for an individual in attendance at school or a school-sponsored activity to furnish a tobacco or vaping product, including the product marketed as Juul or any other e-cigarette, to a minor.[1]

Delegation of Responsibility

A schedule of fees for attendance at school events shall be prepared by the Superintendent and approved by the Board. Board members (both past and present will receive free admission to any school-sponsored event held at ESASD facilities for which an admission fee is not collected by an outside agency renting the facilities.

The Superintendent or designee shall ensure that this policy is posted on the district's publicly accessible website.[9]

Reporting

Office for Safe Schools Report-

The Superintendent shall annually, by July 31, report all incidents of possession, use or sale of tobacco and vaping products, including Juuls and other e-cigarettes by any person on school property to the Office for Safe Schools on the required form.[10][11]

Law Enforcement Incident Report-

In accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies, the Superintendent or designee may report to the school police, School Resource Officer (SRO) or to the local police department that has jurisdiction over the school's property, the use or sale of tobacco or vaping products, including Juuls and other e-cigarettes, by any person in a school building; on a school bus or other vehicles that are owned, leased or controlled by the school district; or on any property owned leased or controlled by the school district.[1][2][10][11][12][13][14]

Service Animals

Individuals with disabilities may be accompanied by their service animals while on district property for events that are open to the general public in accordance with Board policy and state and federal laws and regulations.[15][16][17]

Public Behavior at School Events

The district expects mutual respect, civility, and orderly conduct by all individuals attending school events on district property.

The Board establishes the following regulations with respect to the conduct of school events.

Violation of Law:

Whenever the conduct or action of any students, faculty members, staff or other person on school property constitutes a violation of any federal, state or local law or ordinance, or reasonably appears to constitute such a violation, the appropriate law enforcement agency may be summoned and asked to take such actions as are necessary pursuant to such law or ordinance.

Nothing in this section shall preclude additional administrative actions against any offender, nor shall acquittal in a court of law or dismissal of legal proceedings or charges preclude such administrative actions under any section of these rules or existing state laws.

Other Existing Remedies:

Whenever the conduct or action of any students, faculty or staff members or other employees is such as to justify disciplinary proceedings such as are provided for under Civil Service Law and/or Education Law and such other provisions of federal or state law as may provide for the filing of charges, disciplinary proceedings and punishment thereunder, the Board, or other proper administrative authority may proceed. No proceeding or penalty assessed under the within rules and regulations shall be a bar to, or prohibit in any manner whatsoever, the right of the school district or its staff and officers to proceed pursuant to the aforesaid state laws and any others which may be applicable as a result of such conduct or action.

Expected Behavior:

Individuals attending school events on district property will not:

- 1. Injure, threaten, harass or intimidate a district employee, sports official or coach or any other person.
- 2. Act in an unsafe manner that could threaten the health or safety of others.
- 3. Use vulgar or obscene language or gestures.
- 4. Fight, strike or injure another person.
- 5. Damage, deface or threaten to damage district property.
- 6. Damage, deface or threaten to damage another individual's property.
- 7. Engage in any activity that violates any federal or state law or regulation or any local policy, regulation or ordinance.
- 8. Violate any Board policy or district administrative regulation.
- 9. Use any tobacco and vaping product, including Juuls and other e-cigarettes except in an area designated and posted by the district. These rules do not prohibit the use of nicotine gum, patch or lozenge as a smoking cessation product by adults attending school events.
- 10. Consume, possess, distribute or be under the influence of alcoholic beverages or controlled substances prohibited by state or federal law.
- 11. Possess or use weapons or dangerous devices prohibited by the district except when under the control of law enforcement acting in their official capacity in conjunction with a lawful supervised school activity or course or when possessed for other lawful purpose.[18][19]
- 12. Impede, delay, disrupt or interfere with any school activity or event, including using cellular telephones in a disruptive manner.
- 13. Enter upon any portion of district or school premises at any time for purposes other than those that are lawful and authorized by the Board.
- 14. Operate a motor vehicle in a risky manner, in excess of posted traffic signage, unauthorized parking in designated parking areas, or in violation of an authorized district employee's directive.
- 15. Engage in any risky behavior, such as roller skating, roller blading or skateboarding.
- 16. Fail to obey the directive of an authorized district employee, security officer, school police officer, or local law enforcement official.

904. PUBLIC ATTENDANCE AT SCHOOL EVENTS - Pg. 5

As circumstances warrant, the administrator in charge will take appropriate action, including warning the person in violation, requesting the person to immediately leave district property, contacting law enforcement officials, and seeking to deny future admission to school events.

Refusal to leave school grounds when requested to do so by a school district employee or event official constitutes the criminal offense of defiant trespass and may result in arrest and prosecution.

Continuation or escalation of prohibited behavior after a warning will result in ejection from the event premises.

Behavior that is unlawful or in violation of Board policy or administrative regulations may result in immediate ejection of the person in violation from the event premises.

Disruptive behavior by a group when individual persons cannot be identified may result in the ejection of offending areas of spectator seating.

An employee involved in an incident with an attendee at a school event will complete an incident report and submit it to the building principal or immediate supervisor, who will report the incident to the Superintendent.

Personal Belongings/Searches

No non-clear backpacks, purses or bags are permitted with the exception of one of the following, per person, may be brought inside the facility.

Diaper bags, strollers, walkers and other medically necessary items will be permitted following a detailed search.

Clothing, blankets, cameras and cell phones will be permitted if carried loosely or in an approved clear bag.

All bags and personal items are subject to search.

Crowd Control

A designated administrator will be assigned responsibility for monitoring and supervising the orderly conduct of students and spectators attending school events on district property. Crowd control procedures may include the following:

- 1. The administrator will ensure that enough authorized district personnel are assigned to provide adequate supervision.
- 2. The administrator may request law enforcement officials to be present if s/he anticipates the crowd may pose a behavior or safety problem and may direct the placement of the officers.

- 3. The admissions gate and/or entrances will be regulated, and admission will be limited to eligible students, spectators and other authorized attendees. No one under the influence of alcohol or controlled substances prohibited by state or federal law will be admitted.
- 4. If a disturbance occurs, the administrator will determine if the event needs to be concluded, and s/he may close the event and direct those in attendance to immediately leave school grounds.

INTERNSHIP AGREEMENT

This agreement establishes the relationship between East Stroudsburg University of Pennsylvania (referred to as the "University"), an educational institution in the State System of Higher Education, Commonwealth of Pennsylvania and East Stroudsburg School District, 50 Vine Street East Stroudsburg, PA 18301 (referred to as the "Organization").

The University offers degree programs in a wide variety of disciplines, which are academically enhanced by practical experiences outside of the traditional classroom setting. For this agreement, the Organization shall provide practical experience pursuant to the terms of this agreement and serve as an internship site offering facilities, resources, and supervision to students. Both parties agree to the following:

I. Duties and Responsibilities of the University

- 1. The University will be responsible for internships that are conducted during a regular academic semester(s) or scheduled summer term(s). The University and the Organization agree to schedule the internship hours to mutually benefit all parties involved and to conform to the credit hour assignment of a minimum of 40 contact hours.
- 2. The University shall certify eligibility for students registering internships for academic credit. Approved students will have the appropriate educational background and skills consistent with the advertised internship and departmental requirements for participation.
- 3. The University determines the amount of academic credit to be earned through the internship and establishes all academic requirements that the student must meet to earn the credit. The University establishes a grading system and criteria to earn the grade upon completion of the internship.
- 4. The University will assign a faculty member to monitor and evaluate the student's performance during the internship. The University will assume all costs associated with faculty supervision of the intern.
- 5. The University, at the beginning of the internship term, will provide the Organization with all evaluation materials and the expected timeline for submission.
- 6. The University agrees to advise students of any known policies, procedures, and requirements of the internship as specified by the Organization.
- 7. The University, at the beginning of the internship term, will inform the Organization of course requirements such as the intern's attendance at meetings/seminars or activities that may take the intern away from the assignment.
- 8. The University may request termination of the internship placement for any student not complying with University guidelines and procedures for the internship program, as long as the Organization has been notified in advance.

9. The Organization understands that as an Agency of the Commonwealth, the University is prohibited from purchasing insurance. As a public university and state instrumentality, there is no statutory authority to purchase insurance and it does not possess insurance documentation. Instead, it participates in the Commonwealth's Tort Claims Self-Insurance Program administered by the Bureau of Risk and Insurance Management of the Pennsylvania Department of General Services. This program covers Commonwealth/University-owned property, employees and officials acting within the scope of their employment, and claims arising out of the University's performance under this Agreement, subject to the provisions of the Tort Claims Act, 42 Pa.C.S.A. §8521, et seq.

II. Duties and Responsibilities of the Organization

- 1. The Organization agrees to prepare an internship job description that outlines the duties and responsibilities of the intern. The University will use this document to determine the suitability of the internship for academic credit. Should changes to the job description be necessary after the internship is approved, the Organization agrees to notify the University of such changes.
- 2. The Organization agrees to notify the University of all selection criteria and any requirements of the selection process, including but not limited to, background investigations, drug testing, health screenings, etc.
- 3. The Organization selects interns based on the Organization's needs and preferences.
- 4. The Organization determines the schedule that the intern will maintain on premises. The total scheduled hours will comply with standards established by the University for the assignment of credit hours: a minimum of 40 contact hours.
- 5. At the beginning of the internship, the Organization determines the amount of compensation, if any, received by the intern. The Organization will inform the University if interns will receive an hourly wage, stipend or if they will serve in a non-paid capacity.
- 6. The Organization agrees to provide suitable workspace and resources for the intern to complete the internship assignment. The Organization will also provide orientation, training, supervision and evaluation of the intern.
- 7. The Organization shall provide all reasonable information requested by the University on a student's internship performance. If there are any student evaluations, they will be completed and returned according to any reasonable schedule agreed to by the University and the Organization.
- 8. The Organization agrees to make every possible accommodation to the University's request for a faculty site visit during the internship. The Organization also agrees to allow the intern to attend University-required internship meetings/seminars during the internship.
- 9. Should the Organization become dissatisfied with the performance of a student, the Organization may request removal of the student. This should occur only after the

University has been notified in advance and a satisfactory resolution cannot be obtained. It shall be the obligation of the University to assure that its students are afforded procedural due process if a student is removed pursuant to this section.

III. Mutual Terms and Conditions

- 1. This Agreement will last for five (5) years from the date of the final signature below. Either the University or the Organization may terminate this agreement with ninety (90) days notice. Should the Organization wish to terminate the agreement prior to the completion of a semester/term, any student intern(s) will have the opportunity to complete their internship. In the event of a substantial breach, either party may terminate this agreement.
- 2. The parties agree to continue their respective policies of nondiscrimination based on Title VI of the Civil Rights Act of 1964 in regard to sex, age, race, color, creed, national origin, Title IX of the Education Amendments of 1972 and other applicable laws, as well as the provisions of the Americans with Disabilities Act. University students are protected by Title IX of the Education Amendments of 1972 and other applicable laws, as well as the provisions of Section 504 of the Rehabilitation Act of 1973 (as amended) and the Americans with Disabilities Act (ADA) of 1990. Organization agrees to cooperate with the University in its investigation of claims of discrimination or harassment.
- 3. The laws of the Commonwealth of Pennsylvania shall govern this Agreement.
- 4. The relationship between the parties to this Agreement to each other is that of independent contractors. The relationship of the parties to this contract to each other shall not be construed to constitute a partnership, joint venture or any other relationship, other than that of independent contractors.
- 5. Neither of the parties shall assume any liabilities to each other. As to liability to each other or death to persons, or damages to property, the parties do not waive any defense as a result of entering into this contract. This provision shall not be construed to limit the Commonwealth's rights, claims or defenses which arise as a matter of law pursuant to any provisions of this contract. This provision shall not be construed to limit the sovereign immunity of the Commonwealth or of the State System of Higher Education or the University.
- 6. This Agreement represents the entire understanding between the parties. This Agreement shall only be modified in writing with the same formality as the original Agreement.

- The "point person" contact: responsible for day-to-day operations, upkeep of system, and user management. This includes (but is not limited to):

 project.
- Frontline Education assumes that all data to be imported will be validated as necessary by Client prior to import.
- Client project team will complete online courses, attend instructor-led training, participate in project status
 calls, and complete project tasks as planned.

Implementation Policies

- Change Management Process: Should the Client identify additional services as part of this project, Frontline Education will issue a change order identifying impact to project scope, cost, and timeline for Client review and approval.
- A request to delay the Planned Go Live 30 days or more from the original date can result in rework and require additional charges and a change order.
- Services requested after the Project Close Out will require additional charges and a new services proposal.
- Startup Costs are priced with the assumption that implementation will be completed within 120 days after signing. Frontline reserves the right to charge Customers additional service fees for added project costs due to Customer-caused delays occurring after the 120-day implementation period.

HP SAN (Storage Area Network)/Servers

A. Why are you requesting the service/needs?

Why: We are requesting to upgrade our SAN and Servers in our District Data Centers. The current lease expires in June 2024 on the equipment will be 4 years old.

Need: Our metro-cluster SAN is hosted in two separate data centers allowing for replication of all data at both sites. We also host servers at both datacenters in order to reduce the load at one site or the other. Currently, we can shift services to the alternate site if a site is going down or load-balance our services (disaster recovery). We have 73 virtual servers serving a variety of services such as: Active Directory, Domain Name Services, File Hosting Services, Apple Software Distribution, Windows Software Distribution, Moodle, Network Access Control, Password Reset, Print Servers, Inventory Control, Pro-Watch, Copier Management, Telephone System Management, Cafeteria PoS System, Microsoft Licensing Management, Time Synchronization Service, Police Reporting Server, Transportation Server, Backup Servers. All virtual servers are hosted by eight physical servers (four in each data center) and connected to the metro-cluster storage with a dedicated replication link. All servers are configured for high availability and are load-balanced for best performance at each site. The proposed SAN solution moves us to one onsite SAN and one DRaaS (disaster recovery as a service) in the cloud.

Suggested replacement: HPE Alletra Solution

Terms and Conditions

We do our best to make sure that your order is correct. Please review this order to confirm that the model number, color, quantity, size, and price are all correct. If all the information is accurate, please sign and return to me by email. If there is a discrepancy, please call Steve Pearlman at 800-526-4677 x1139 so that we may correct the error and process your order.

1. Know Your Shipping Methods:

- Tailgate delivery The truck driver is only responsible to move the furniture to the tailgate (back) of the truck. You are responsible to unload the furniture from the truck and carry it into your building.
- b. **Liftgate Delivery*** Recommended for heavier or larger shipments. A liftgate (a steel elevator-like platform at the end of the truck) is used to lower the merchandise off the truck down to the street level, so you don't have to do it yourself.
- c. **Assisted Inside Delivery*** The truck driver will help you offload the goods from the truck and bring them into the first dry area of your building.
- d. **Notify Before Delivery**** When a shipment is ready to ship, the trucking company will call you within approximately 24 hours to arrange for a convenient time for the delivery

*Liftgate Delivery and Assisted Inside Delivery are available for an additional charge. If you do not order these services in advance and then request them from the freight company at the time of delivery, or if a redelivery will be required, you will be responsible for any additional charges incurred.

**Notify Before Delivery is available for an additional charge. Unless you request this service, you will not be notified about the delivery ahead of time. If you're not available to accept the delivery, you will be responsible for redelivery charges.

2. Steps to take at time of delivery to protect against loss or damage:

- a. Verify count Make sure you are receiving as many cartons as are listed on the delivery receipt. If any shortage is discovered, note exactly how many cartons are short on the carrier's delivery receipt and have the driver note the shortage on your copy.
- b. Carefully examine each carton for damage If damage is visible, note this fact on the delivery receipt and please be specific with your notations (for example, cartons crushed or carton has a hole in it). If the cartons are severely damaged, do not accept the shipment. The customer has a right to accept partial shipments and refuse the remaining damaged units. If a carton has appearances that the contents inside may possibly be damaged, insist that it be opened right at that time, and both you and the driver should make a joint inspection of the contents. Any such concealed damage should likewise be noted on the delivery receipt and on your copy. Be sure to retain your copy. Hertz Furniture should be advised immediately. Please contact our Customer Service department at 800-526-4677 option 4.
- c. Immediately after delivery, open all cartons and inspect for concealed damage -Even though the driver has already left, all cartons should immediately be opened, and the contents inspected for possible concealed damage. Hertz Furniture will only accept responsibility for damage reported within 5 days from delivery.

Quote #: 701791 **Prepared on:** 01/16/2024 12:49 pm

3. Steps to take when visible or concealed damage is discovered:

- a. Retain damaged items Not only must damaged items be held at the point where they are received, but the cartons and all inner packing materials must be held until an inspection is made by a carrier inspector.
- b. Report concealed damage to Hertz Furniture immediately upon the discovery of damage that could not have been determined at time of delivery. Failure to report damages within 5 days will affect replacements of the damaged merchandise and the outcome of the claim.
- c. Document all your correspondence in writing Pictures of the damaged cartons as well as their contents are required. This documentation will enable Hertz Furniture to settle the freight claims more efficiently and rapidly.
- **4. Document all your correspondence in writing -** Pictures of the damaged containers as well as the contents in the containers are required. This documentation will enable Hertz Furniture to settle the freight claims more efficiently and rapidly.

5. Steps to take when carrier makes inspection of damaged items:

- a. **Have damaged items in receiving area** Make certain the damaged items have not been moved from the receiving area prior to discovery of the damage. Allow the inspector to inspect damaged items, cartons, inner packing materials and freight bill. Be sure to retain your delivery receipt it will be needed as a supporting document when the claim is filed.
- b. After the inspector fills out inspection report, carefully read it before signing If you do not agree with any facts or conclusions made by the inspector on the report, do not sign it. Unless repairs will be completely satisfactory, be sure the inspector requests replacement on the inspection report.
- c. Forward your copy of the inspection report and delivery receipt to Hertz Furniture Call our Customer Service department at 800-526-4677 option 4 for further instructions. A freight claim will be filed on your behalf. Should you choose to do so, you may file your own claim. Hertz Furniture will take no responsibility should your claim be declined.

6. Steps to take after inspection has been made:

The damaged merchandise must be held in original cartons - Hertz Furniture will advise you of the disposition of the damaged unit when the claim is settled. The customer must make the product available for salvage pick up.

7. Order Cancellation:

An order may be canceled, but only before the order has been sent to production. In some cases, cancellations can be accepted even after the order is in production, but additional fees (restocking and/or cancellation) will be billed to your account.

If the order has already shipped, we can no longer cancel the order.

To confirm that your order has been canceled, we will send you a cancellation notice. Only then will the cancellation be in effect.

Custom orders (including many upholstered items) are non-cancelable.

8. Returns:

All items must be in the original carton, unassembled and unused. Please note that returns cannot be made after the product has been assembled. Custom orders are non-returnable. Many products (e.g. upholstered items) are considered custom items and are non-returnable. Please call us at 800-526-4677 for details.

Depending upon Customer feedback and the complexity of data mapping requests, there may be additional follow-up calls or emails required to complete the data onboarding process.
- ClearGov will inform Customer of all training, learning, and support options. ClearGov recommends all Users attend ClearGov Academy training sessions and/or read Support Center articles before using the ClearGov Service to ensure a quick ramp and success. As needed, ClearGov will design and deliver customized remote training and configuration workshops for Admins and one for End Users via video conference and these sessions will be recorded for future reference.
- ClearGov will make commercially reasonable efforts to complete the onboarding/activation process in a timely fashion, provided Customer submits financial data files and responds to review and approval requests by ClearGov in a similarly timely fashion. Any delay by Customer in meeting these deliverable requirements may result in a delayed data onboarding process. Any such delay shall not affect or change the Service Period(s) as set forth in the applicable Service Order.

Customer Responsibilities

- Customer's Primary Contact will coordinate the necessary personnel to attend the Kickoff and Data Discovery Calls within two weeks after the Service Order has been executed. If Customer needs to change the date/time of either of these calls, the Primary Contact will notify the ClearGov IM at least one business day in advance.

Aggression Replacement Training

Why are you requesting the service or item *

This training would allow for the facilitation of groups to reduce the aggressive behaviors of students at the high school level. Due to the increase of aggressive behaviors around fighting among students in the building. The goal would be to provide conflict resolution skills to the students and provide with the appropriate skills to manage their emotions.

Aggression Replacement Training® (ART) is a cognitive-behaviorally-based intervention designed to serve youth who display violent and aggressive behavior. ART consists of three components: social skills training, where youth learn how to replace aggressive behaviors with prosocial behaviors; anger control training, where youth learn how to handle anger-provoking situations; and moral reasoning training, where youth learn how to perspective-take and develop concern for others. Seven staff members will be trained in this model.

Group facilitators provide social skills training using a four-stage process: (1) modeling the skill, (2) role-playing, (3) providing performance feedback, and (4) facilitating transfer training. Transfer training, such as homework, requires youth to use the skill outside of ART sessions. Group facilitators provide anger control training using the A-B-C model, focusing on antecedents, behaviors, and consequences of aggression. Youth record anger-triggering situations in a "Hassle Log" and learn to identify their anger triggers and techniques they can use to control their anger. Group facilitators provide moral reasoning training through social decision-making meetings. The meetings help youth use a four-step process to discuss options for handling a fictional problem situation and to decide on a course of action by: (1) introducing the problem situation, (2) cultivating moral maturity by discussing responsible moral decisions for the problem situation, (3) remediating moral development delay by discussing irresponsible decisions, and (4) consolidating moral maturity by forming a group consensus about the responsible decision for the problem situation

NEW STORY TUITION AGREEMENT 2023-2024 SCHOOL YEAR

THIS TUITION AGREEMENT is made effective as of the date set forth below by and between New Story, LLC and EAST STROUDSBURG SCHOOL DISTRICT ("School District"). For the mutual consideration set forth herein and intending to be legally bound hereby, the parties agree as follows:

- 1. ("Student") requires special education as defined by his/her Individualized Educational Program ("IEP"). New Story operates a school ("School") located at 751 Keystone Industrial Park Road, Throop, PA 18512. School is a private licensed school within the Commonwealth of Pennsylvania that provides educational services to children with special education requirements. School employs certified personnel as defined by the Pennsylvania Department of Education and otherwise meets regulatory requirements for a private licensed school. New Story performs all background checks on School staff as required by Section 1-111 of the Public School Code (24 P.S. § 1-111), including child abuse clearances and Pennsylvania and federal criminal history reports. Criminal history reports are updated at least every 60 months. Copies of such documentation shall be provided to the School District upon request. New Story does not employ individuals who are disqualified from having direct contact with children under applicable law. New Story performs employment history reviews as required by 24 P.S. § 1-111.1. New Story will notify School District in writing if it learns that a New Story employee performing services under this agreement is arrested for or convicted of a crime.
- School District desires to obtain educational services from New Story for Student in accordance with Student's required program pursuant to the student's IEP. New Story has agreed to enroll Student in the School. The parties agree that the special education program offered by New Story within the School is the least restrictive and most appropriate environment within which to provide Student with the required special education as set forth in the IEP.
- 3. The commencement and ending dates for the Student's enrollment at the School for school year services are set forth on the signature page. Student's enrollment will expire on the ending date. The enrollment of Student at the School may be terminated by either party upon at least twenty-one (21) calendar days written notice to the other party. School District shall remain obligated to pay all amounts due to New Story through the enrollment termination and such obligation shall survive any termination of this Agreement. If student becomes hospitalized or placed at an alternate placement, after ten (10) consecutive days, School District can dis-enroll or choose to pay the low daily rate to maintain enrollment.
- 4. New Story agrees to provide, within reason, Student with all the services specified within the IEP, including any subsequent revisions to the IEP. New Story shall notify the Student's Parent/Guardian and School District if it cannot provide such services for any

- reason. The parties agree that New Story has made no representations or other commitments regarding Student achieving any specific goals specified within the IEP.
- 5. School District agrees to translating the IEP in the Parent's native language, as required by law and upon request.
- 6. New Story reserves the right to terminate a Student's enrollment at the School whenever New Story determines, in its sole discretion, that Student is not benefiting from the program being offered, School is unable to effectively deliver services to Student, Student presents a serious risk to the safety of others, and/or Student is in need of services which School is unable to provide. New Story shall provide written notice of its intention to terminate Student's enrollment at least twenty-one (21) calendar days prior to termination except when termination is for serious disciplinary infractions or safety reasons. Serious disciplinary infractions shall be defined at the sole discretion of New Story. However, the parties acknowledge that School is designed and intended to educate students with behavioral challenges and that serious disciplinary infractions as defined by New Story must present exceptional challenges to be so defined.
- 7. New Story personnel will participate in the IEP development and revision process along with Parent(s)/Guardian(s), School District, and other individuals as appropriate under applicable law.
